EMAIL PLUGIN

GET IT

DOWNLOAD IT...

Click on the 'Create Email Integration' dropdown in your Dashboard and select the plugin you need...

INSTALL IT...

Follow the installation instructions, restart Outlook (or Chrome for the Gmail Plugin) and send a test email to the address in the instructions with a link to your website.

USE IT!

Once we've confirmed it's worked, you can go ahead and start emailing as normal - you'll love knowing which people are clicking through and are most likely to convert!
